

The new radiant energy therapy underlay that synergizes 2 therapy components: Far-Infra-Red -Energy Light and Amethyst Crystal Energy

delivering Core Activation Therapy that deeply penetrates to support restoring and raising the core body temperature and blood circulation, for better health and healing.

Typically ET's InfraBed users report "Feeling Better + Moving Better"

BiBlanket®

INFRABED®
Radiant Thermal Therapy

Far-Infra-Red-Energy (FIRE) Light generation is Nature's own healing heat. FIRE's radiant heat can penetrate up to 3 to 10 cms into the body, creating deep nerve, organ, joint, muscle and tissue therapy, reducing stress, relieving pain, by increasing circulation and metabolism, facilitating normal core body temperature.

Amethyst Crystals Amethyst has an ancient reputation as the healing crystal. Amethyst is known to be a good conductor and when heated delivers even more of the absorbable, long wave, Far-Infra-Red-Energy (FIRE).

InfraBed® comes with a **precise controller for heat range (20C - 70C)** and a timer allowing you to find and set your preferred intensity and length of sessions. Long-low temp sessions suit general health, short-hi temp, suit therapeutic uses.

InfraBed includes **high-quality leather-like fabric surface** that is both attractive and soft to the touch and yet quite durable, + two quality fitted protective covers.
