

The new range of InfraBeds are radiant energy thermal therapy underlays, or mats, that combine two bio-energy components, working in synergy : **Far-Infra-Red-Energy** & **Amethyst Crystal Energy**. This delivers **core activation thermal therapy** that deeply penetrates for restoring and raising your core body temperature, metabolism, energy, and blood circulation, for better health and healing. + BioBlanket combines perfectly over your InfraBed.

# INFRABED®

Radiant Thermal Therapy

**Far-Infra-Red-Energy** (or FIRE) Light generation is Nature's own healing heat. FIRE's radiant heat can penetrate from 3 to 10 cms into the body, creating deep nerve, organ, joint, muscle and tissue warmth, reducing stress, relieving pain, by increasing circulation and metabolism, facilitating normal core body temperature.

**Amethyst Crystals** Amethyst has an ancient reputation as the "healing crystal". Amethyst is shown to be a good conductor and when heated delivers more of the highly absorbable, deep thermal heating, Far-Infra-Red-Energy (FIRE). Infrared thermal energy has been widely used for its anti-inflammatory effects on the body.

InfraBed® comes with a **precise controller for heat ranges (20C - 70C)** with a timer allowing you to find and set your preferred intensity and length of sessions. Long-low temp sessions suit general health, short-hi temps, suit therapeutic uses.

InfraBed includes: **high-quality leather-like fabric surface** that is soft to touch, yet very durable, plus 1 quilted cotton cover, 1 fitted cotton sheet and 1 carry-bag.
