BioBlanket

BIOBLANKET ® is the third generation of **ET's Energy Blanket** and its evolved into a multilayered holistic-bio-energy-feedback therapeutic blanket with two distinctly different sides = (Yin + Yang) and **4** different **Purposes**

- 1** to help **PROTECT** the body by deflecting away external energy influences
 - 2** to help **REFLECT** Back to the body its own energy output = BioFeedback
 - 3** to help **BALANCE** the body's multiple energies by establishing a Cocoon
 - 4** to help **RESTORE** core body temperature, BioBlanket over the InfraBed
- Whether you use BioBlanket by itself, Yin or Yang side up or down, BioBlanket gives you both external Protection + internal Reflection.

BioBlanket

BioBlanket

Multi layers inside the BioBlanket are designed to protect and also prevent the body's various energetic emissions from dissipating outwards. These layers reflect bodily energetic emissions, incl thermal, back onto the body.

By using your BioBlanket over an InfraBed = you multiply infrared thermal transfer from Conduction with Radiation, adding Convection and Reflection.

BioBlanket includes : 1 Bio-Blanket quality Cotton Cover with a Yang A side (quilted side), and a Yin B side (sheeted side), and also 1 carry-storage-bag. King Double BioBlanket is large enough to fold over and create a COCOON.

“You can lie or sit with your big BioBlanket around, under, or over you, anytime. Maximum recuperation effects are achieved when I’m wrapped head to toe.”

BioBlanket®

Energy Reflection Therapy

BioBlankets work essentially by deflecting away external energies that may be influencing the body, and by reflecting back to itself the body's own energies.

Multi-layers in the BioBlanket are designed to prevent our own energetic emissions from dissipating outwards and so these same multi-layers reflect bio-emissions back onto the body, prompting self-regulation and balance.

Each BioBlanket has two sides, a Yin passive side, and a Yang active side. There's an extra layer that is infused with Negative Ions on the Yang side. Depending on the user which is more preferable, but both sides reflect fully.

How does it feel? *“The first thing you feel is complete, pleasant protection. You may feel warmth or subtle energy shifts but these pass as you relax. Within minutes you feel naturally more centered and balanced and calm. Many report feeling sleepy and a quiet state of body-mind like a meditation.”*

NB BioBlankets are NOT ARTG listed therapy devices so no claims are made.
